Software Developer

About Us

Edfora is an EdTech start-up promoted by the founder of the FIITJEE Group. Edfora stands for "Education for All" and pledges to make education inclusive and accessible leveraging the power of technology. Edfora respects high order thinkers and achievers. We have been able to attract impactful performers including the talents that are alumni of IIT, IIM and other top-tier institutes. Our unique ability to innovate comes from a rare combination of rich experience in the education domain and cutting-edge technology. This empowers us to solve real problems of the education domain, while creating sustainable solutions for the future. Edfora owns a market leading EdTech platform with cumulative 2 lacs+ paid customers and 100+ employees with extraordinary academic outcomes for students, year over year.
